

Palmetto Electric Cooperative, Inc.

JOB POSTING

August 20, 2024

We currently have an opening for a **Distribution Engineer** at the New River district office.

Position Summary: Performs system modeling and coordination studies. Assists in the preparation of the long-range and four-year work plans. Coordinates data migration from the Geographic Information System (GIS) to the engineering model. Manages the material standards and specifications. Reviews development plans, makes design recommendations for construction of the electrical infrastructure, provides quantities for ordering materials. Assists with distributed generation interconnection requests.

Position Specifications: Bachelor of Science (B.S.) degree in Engineering from an ABET accredited school preferred, or similar technical experience and education. Experience with an electrical power distribution system preferred. Candidates that have or could reasonably obtain E.I.T. status or Professional Engineering licensure are preferred. Knowledge of computer systems, ESRI, AutoCAD, database, SQL models, and SCADA systems desirable. Must be self-motivated, work well with others, and have the knowledge to work productively. A willingness to provide quality customer service and create customer satisfaction is required. Must have and maintain a valid driver's license in good standing.

Palmetto Electric offers a full benefit package including a 401(k) and a defined benefit plan.

Interested candidates should submit a resume to HR@Palmetto.coop or complete an application at one of our four office locations. Palmetto Electric Cooperative, Inc., is EOE.
