

# Value of an ecobee thermostat:

### Saves money

A smart thermostat can save you money. Installing and properly using a smart thermostat can result in energy-saving costs.

### Increases home comfort

Smart thermostats are more accurate at measuring the current indoor temperature and more efficient at raising or lowering it to your desired indoor temperature.

### Saves energy

Saving money is really a byproduct of saving energy. Smart thermostats ensure that your home is at a temperature when it needs to be, and eliminate unnecessary HVAC usage.

### Delivers a peace of mind

ecobee smart thermostats are Wi-Fi enabled and therefore you can monitor and control them using a smartphone, tablet or computer—no matter where you are.

## Convenience, control and savings for you.

# Live Smart. Save More.

Get all the benefits and easy savings our **Smart Thermostat Program** offers!

Now, Palmetto Electric members can save even **MORE MONEY!**

**In addition to the energy savings, Palmetto Electric's members can take advantage of this exclusive offer:**

- **Free ecobee Smart Thermostat**
- **Free Standard Installation**
- **Smart Rewards\$**  
up to \$5 per month bill credit\*

Palmetto Electric will provide you with the smart thermostat. We will also provide a licensed electrician to install the device— at no cost to you!

**You must have Wi-Fi in your home in order to participate.**

**Why wait? Call for details today.**

Contact us at 800.922-5551 or visit [palmetto.coop](http://palmetto.coop).

## Take advantage of our Smart Thermostat program!

When you install an ecobee Smart Thermostat, you can:

**Control**  Conveniently adjust your home's temperature from anywhere, anytime. Operate it from your mobile device.

**Track**  View monthly energy reports that show use. You can even compare your use to what others are using.

**SAVE**  The thermostat automatically adjusts when you're not home. The thermostat also adjusts for a few degrees during "peak" periods. These typically occur on the coldest winter mornings and hottest summer afternoons, when the demand for electricity and the cost of producing it is highest.

By reducing your electricity use during peak times, you'll be helping reduce costs for all Palmetto members. You will also be eligible to receive Smart Reward\$ bill credits.

**Start living smart and saving more!**

\*Call 800-922-5551 today or visit [palmetto.coop](http://palmetto.coop) for more information and complete terms and conditions.

**Receive \$5 per month bill credit\***

### SMART THERMOSTAT PROGRAM SPECIFICS\*

- You must have Wi-Fi in your home to participate.
- To qualify for the program, the service location must be serviced by Palmetto Electric.
- You must have the properly connected ecobee smart thermostat for a minimum of three (3) years. If you cancel during this period, an exit fee up to \$200 may apply.
- You must grant permission to Palmetto/ecobee to monitor and control the thermostat during high energy load periods through your home's Wi-Fi system.
- During the peak control events, the thermostat's temperature settings may be adjusted as needed, up to 4 degrees above or below member's desired setting.
- You will be notified prior to an upcoming peak control event and will have the opportunity to opt-out of the event.
- You can opt-out any time after a control event has started, however, if you opt-out and override more than 30% of the peak control events, future incentives will be voided, enrollment in the program will be cancelled and may be subject to the exit fee.
- Monthly Smart Rewards bill credits are guaranteed for three (3) years from your program's starting date. Gas heating systems are not eligible.
